Michael Anderson

DIGITAL PROGRAM EVALUATOR

Innovative Mental Health Program Evaluator with 5 years of experience specializing in technology-driven evaluations. I have a strong background in using digital tools and platforms to collect and analyze data for mental health programs. My work is focused on enhancing the accessibility and effectiveness of mental health services through the use of technology and data analytics.

EXPERIENCE

DIGITAL PROGRAM EVALUATOR

Tech for Mental Health

2016 - Present

- Developed digital evaluation tools for mental health programs.
- Utilized online surveys to gather participant feedback effectively.
- Analyzed data using Tableau to visualize program outcomes.
- Collaborated with tech teams to improve data collection processes.
- Provided recommendations for program enhancements based on user data.
- Trained staff on the use of digital evaluation tools.

EVALUATION CONSULTANT

Mental Health Innovations

2014 - 2016

- Conducted evaluations of mental health apps and digital interventions.
- Gathered and analyzed user feedback to inform app development.
- Collaborated with developers to ensure user-friendly evaluation processes.
- Presented findings to stakeholders to improve digital offerings.
- Developed case studies highlighting successful technology integrations.
- Participated in workshops to promote awareness of digital mental health tools.
