

MICHAEL ANDERSON

SENIOR METAL FINISHING TECHNICIAN

PROFILE

Distinguished Metal Finishing Technician with a robust background in precision coating and surface enhancement technologies. Expert in the application of various finishing methods, such as powder coating and electroplating, to ensure optimal product performance and aesthetic appeal. Known for analytical skills that facilitate the identification of process inefficiencies and the implementation of corrective measures.

EXPERIENCE

SENIOR METAL FINISHING TECHNICIAN

Titan Surface Technologies

2016 - Present

- Directed a team of technicians in executing complex metal finishing projects, ensuring timely delivery.
- Evaluated and refined finishing processes, achieving a 25% increase in throughput.
- Facilitated continuous improvement workshops, enhancing team skills and knowledge.
- Negotiated with suppliers for high-quality materials, reducing costs by 15%.
- Maintained compliance with health and safety regulations, achieving zero incidents.
- Led initiatives to enhance environmental sustainability in finishing operations.

METAL FINISHING SPECIALIST

Elite Coatings Group

2014 - 2016

- Managed plating operations, ensuring adherence to stringent industry standards.
- Utilized advanced analytical tools to assess surface quality and performance.
- Trained new employees on coating procedures and safety measures.
- Collaborated with engineering teams to develop innovative finishing solutions.
- Monitored process parameters, adjusting accordingly to optimize outcomes.
- Documented and reported production data to management for review.

SKILLS

- precision coating
- process optimization
- team leadership
- safety compliance
- supplier negotiation
- analytical tools

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN MATERIALS ENGINEERING

ACHIEVEMENTS

- Increased production efficiency by 30% through process improvements.
- Recognized for excellence in operational safety with a company-wide award.
- Developed a training program that improved technician retention rates by 40%.
