## SKILLS

- digital design
- 3D modeling
- laser cutting
- project documentation
- client feedback
- artistic innovation

## EDUCATION

BACHELOR OF ARTS IN METAL DESIGN,  
CALIFORNIA COLLEGE OF THE ARTS

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Won 'Innovative Artisan of the Year' at the National Craftsmanship Awards.
- Increased production efficiency by 35% through technology integration.
- Published research on the future of technology in metal arts.

# Michael Anderson

## DIGITAL METAL INLAY ARTISAN

Innovative Metal Inlay Artisan with a passion for integrating technology and craftsmanship in modern metalwork. Experienced in employing cutting-edge techniques and digital tools to create stunning inlays that resonate with contemporary aesthetics. A strong advocate for the fusion of traditional skills with modern technology, resulting in unique artistic expressions that appeal to a wide audience.

## EXPERIENCE

### DIGITAL METAL INLAY ARTISAN

TechArtisans

2016 - Present

- Utilized 3D modeling software to design intricate inlay patterns.
- Implemented laser cutting technology for precision inlays.
- Collaborated with technology teams to develop innovative production methods.
- Presented workshops on the intersection of technology and traditional crafts.
- Maintained project documentation and client feedback for continuous improvement.
- Engaged in regular training to stay current with industry trends.

### METAL INLAY TECHNICIAN

Art and Tech Innovations

2014 - 2016

- Developed prototypes using CAD for client review and approval.
- Executed designs using both handcraft techniques and modern machinery.
- Coordinated with marketing teams to promote innovative projects.
- Documented production processes for training and quality control.
- Participated in design competitions, earning recognition for creativity.
- Maintained equipment and ensured safety standards were met.
