

MICHAEL ANDERSON

Senior Tool Maker

Resourceful Metal Tool Maker with a strong focus on the electronics manufacturing industry, recognized for the precision and reliability of tooling solutions that support the production of electronic components. Demonstrates a comprehensive understanding of electronic manufacturing processes and the specific tooling requirements for high-tech applications. Proven ability to innovate tooling designs that enhance productivity while maintaining stringent quality standards.

EDUCATION

Associate Degree in Electrical Engineering Technology

Technical Institute
2015

SKILLS

- Electronics Manufacturing
- Tool Design
- Quality Control
- Process Optimization
- Team Training
- Technical Documentation

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Senior Tool Maker

2020-2023

Tech Electronics Corp.

- Designed and manufactured precision tooling for electronic component production.
- Optimized tooling designs to improve cycle times by 20%.
- Collaborated with engineers to ensure tooling met advanced manufacturing specifications.
- Conducted failure analysis on tooling to enhance reliability and performance.
- Trained new employees on advanced tooling techniques and safety protocols.
- Maintained documentation of all tooling changes and improvements.

Tool Maker

2019-2020

Precision Circuitry

- Fabricated tooling for high-precision electronic assemblies.
- Supported the implementation of new technologies in tooling processes.
- Maintained tooling inventory, ensuring availability for production needs.
- Participated in quality control inspections to ensure product compliance.
- Assisted in the development of training programs for staff on tooling operations.
- Engaged in continuous improvement initiatives for tooling processes.

ACHIEVEMENTS

- Achieved a 35% reduction in tooling costs through innovative design solutions.
- Received recognition for leading a team project that enhanced production efficiency.
- Contributed to a major product launch that met all deadlines and quality standards.
