Michael Anderson

SAFETY COMPLIANCE ENGINEER

Detail-oriented Metro Rail Engineer with over 8 years of experience in rail system safety and compliance. My expertise lies in ensuring that all aspects of metro operations meet stringent safety regulations and industry standards. I have a proven ability to conduct thorough inspections, develop safety protocols, and implement training programs for operational teams.

EXPERIENCE

SAFETY COMPLIANCE ENGINEER

Safe Transit Systems

2016 - Present

- Conducted comprehensive safety audits on metro systems, identifying areas for improvement.
- Developed and implemented safety training programs for over 100 operational staff.
- Collaborated with regulatory agencies to ensure compliance with safety standards.
- Monitored safety performance metrics, achieving a 15% reduction in incidents.
- Created detailed reports on safety assessments, providing actionable recommendations.
- Engaged with community stakeholders to raise awareness about transit safety measures.

METRO OPERATIONS ENGINEER

City Rail Authority

2014 - 2016

- Managed daily operations of metro systems, ensuring adherence to safety protocols.
- Coordinated emergency response drills to prepare staff for potential safety incidents.
- Developed operational manuals outlining safety procedures and best practices.
- Assisted in the investigation of safety incidents, providing insights for future prevention.
- Led safety briefings for new hires, promoting a culture of safety from day one.
- Utilized safety management software to track incidents and compliance data.
