EXPERTISE SKILLS

- Oracle SOA Suite
- TIBCO
- Web Services
- API Development
- SOA
- Middleware Optimization

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Software Engineering, University of Advanced Studies

MICHAEL ANDERSON

LEAD MIDDLEWARE DEVELOPER

Proficient Middleware Developer with 7+ years of experience specializing in service-oriented architecture (SOA) and enterprise application integration. Skilled in using technologies like Oracle SOA Suite and TIBCO to create robust middleware solutions that enhance operational efficiency. Extensive experience in optimizing application performance and ensuring seamless data flow across platforms. Strong background in developing APIs and web services that meet stringent security and compliance standards.

PROFESSIONAL EXPERIENCE

Enterprise Systems Corp.

Mar 2018 - Present

Lead Middleware Developer

- Led the design and implementation of a SOA framework using Oracle SOA Suite, resulting in a 40% increase in system efficiency.
- Developed and maintained secure web services for internal and external applications, ensuring compliance with industry standards.
- Mentored junior developers, enhancing team capabilities and fostering a culture of continuous improvement.
- Performed system analysis and optimization, achieving a 30% reduction in response times across critical applications.
- Collaborated with IT and business teams to gather requirements and create detailed technical documentation.
- Implemented best practices for middleware development, improving code quality and maintainability.

TechPioneers Inc.

Dec 2015 - Jan 2018

Middleware Developer

- Designed and developed middleware solutions that integrated cloud services with on-premise applications using TIBCO.
- Worked on API development projects, providing seamless access to data across multiple platforms.
- Participated in code reviews and contributed to the improvement of development processes.
- Assisted in deploying middleware applications in a cloud environment, enhancing scalability and performance.
- Conducted performance benchmarking and tuning, resulting in a 25% enhancement in throughput.
- Provided support for production middleware applications, resolving incidents and minimizing downtime.

ACHIEVEMENTS

- Awarded 'Best Team Leader' for exceptional mentorship and leadership in middleware projects.
- Successfully implemented a middleware solution that reduced operational costs by 20%.
- Recognized for outstanding contributions to the development of secure APIs that enhanced data access for external partners.
