

MICHAEL ANDERSON

Middleware Developer

- San Francisco, CA
- (555) 234-5678
- michael.anderson@email.com

Talented Middleware Developer with 3 years of experience in developing and supporting middleware applications in a fast-paced environment. Experienced in using technologies like Dell Boomi and Azure Logic Apps to create integrations that improve business processes. Strong understanding of API management and data transformation techniques, with a passion for delivering high-quality solutions.

WORK EXPERIENCE

Middleware Developer | Future Tech Solutions

Jan 2022 – Present

- Developed middleware applications using Dell Boomi, improving data integration processes by 30%.
- Created and managed API integrations for cloud applications, enhancing data accessibility and reliability.
- Participated in Agile sprints, contributing to user story development and sprint reviews.
- Assisted in the troubleshooting of middleware-related issues, ensuring minimal disruption to business operations.
- Collaborated with cross-functional teams to gather requirements and deliver tailored solutions.
- Documented middleware processes and workflows, ensuring clear communication and knowledge transfer.

Junior Middleware Engineer | Integrated Solutions Group

Jul 2019 – Dec 2021

- Supported the development of middleware solutions that integrated various third-party applications.
- Contributed to the maintenance and enhancement of existing middleware applications, improving functionality.
- Engaged in code reviews and contributed to the establishment of best practices.
- Documented technical specifications for middleware applications, facilitating better understanding across teams.
- Participated in team meetings to discuss project progress and potential challenges.
- Provided assistance in troubleshooting middleware issues, ensuring timely resolutions.
