PROFILE

Accomplished Mixing Engineer with a robust portfolio spanning over 8 years in the film and television industry. Exhibits an exceptional ability to blend dialogue, sound effects, and music to create immersive audio experiences. Skilled in the application of both traditional and contemporary mixing techniques, ensuring the seamless integration of sound elements.

EXPERIENCE

MIXING ENGINEER

Cinematic Sound Labs

2016 - Present

- Mixed soundtracks for over 50 feature films and documentaries, enhancing narrative depth through audio.
- Collaborated with directors to tailor soundscapes that support visual storytelling.
- Utilized Avid Media Composer and Pro Tools for precise audio editing and mixing.
- Implemented sound design elements, ensuring a cohesive auditory experience.
- Supervised the audio post-production process, ensuring timely project delivery.
- Conducted quality assurance checks on final mixes to guarantee compliance with industry standards.

JUNIOR MIXING ENGINEER

Echo Sound Studios

2014 - 2016

- Assisted in mixing audio for various television shows, focusing on clarity and audience engagement.
- Learned advanced mixing techniques under the guidance of senior engineers.
- Participated in sound editing sessions, providing support to enhance audio quality.
- Maintained audio equipment, ensuring optimal functionality during recording sessions.
- Contributed to brainstorming sessions for sound design strategies.
- Helped in organizing and archiving audio files for easy retrieval and future projects.
