

MICHAEL ANDERSON

Mixing Engineer

Dedicated Mixing Engineer with a focus on acoustic music and a rich experience of over 7 years in the recording industry. Known for the ability to capture the nuances of live performances and translate them into high-quality recordings. Exhibits a refined understanding of acoustic properties and their impact on sound quality.

WORK EXPERIENCE

Mixing Engineer

2020-2023

Acoustic Harmony Studios

- Mixed recordings for various acoustic artists, focusing on preserving the authenticity of sound.
- Utilized specialized microphones and recording techniques to capture live performances effectively.
- Collaborated with musicians to achieve a cohesive sound that reflects their artistic vision.
- Maintained studio equipment and ensured optimal performance during recording sessions.
- Conducted audio quality checks on final mixes, ensuring adherence to industry standards.
- Participated in community music events to promote acoustic music and foster collaboration.

Junior Engineer

2019-2020

SoundWave Records

- Assisted in the mixing of acoustic tracks, focusing on clarity and emotional expression.
- Learned to operate various audio mixing software and equipment.
- Supported senior engineers in maintaining studio organization and sound quality.
- Participated in recording sessions, gaining hands-on experience with artists.
- Archived session files for future reference and project continuity.
- Contributed to creative sessions, brainstorming sound design concepts.

ACHIEVEMENTS

- Mixed an album that received nominations for several acoustic music awards.
- Recognized for contributions to community music projects focused on acoustic genres.
- Successfully launched a collaborative EP that gained positive reviews from critics.
