

MICHAEL ANDERSON

MOBILE API DEVELOPER

PROFILE

Dynamic Mobile API Developer with a strong background in the finance sector, specializing in secure and efficient API development for banking applications. With over 5 years of experience, I have successfully developed and integrated APIs that facilitate real-time financial transactions while adhering to strict compliance standards. My analytical skills enable me to identify and resolve performance bottlenecks, ensuring optimal user experiences.

EXPERIENCE

MOBILE API DEVELOPER

FinTech Solutions Corp.

2016 - Present

- Developed secure RESTful APIs for mobile banking applications, ensuring compliance with financial regulations.
- Implemented authentication protocols using OAuth2 and JWT, enhancing security for user transactions.
- Collaborated with frontend developers to integrate APIs, resulting in a 50% reduction in feature development time.
- Optimized existing APIs, achieving a 35% increase in transaction processing speed.
- Conducted security audits and performance tests on APIs, mitigating vulnerabilities and improving reliability.
- Documented API specifications and usage examples, streamlining onboarding for new developers and partners.

JUNIOR API DEVELOPER

Global Banking Inc.

2014 - 2016

- Assisted in the development of mobile APIs for a financial tracking application, contributing to a user base growth of 20%.
- Participated in troubleshooting and debugging API issues, reducing response time by 15%.
- Worked closely with QA teams to ensure API functionality met high-quality standards.
- Engaged in agile sprint planning and retrospectives, promoting continuous improvement in development processes.
- Maintained comprehensive documentation for APIs, facilitating easier integration for third-party developers.
- Supported the migration of legacy systems to RESTful API architecture, enhancing system efficiency.
