EXPERTISE SKILLS

- Ruby on Rails
- JavaScript
- RESTful APIs
- HIPAA compliance
- AWS
- Agile methodologies

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Health Informatics, University of Health Sciences, 2016

MICHAEL ANDERSON

MOBILE API DEVELOPER

Innovative Mobile API Developer with over 6 years of experience in the healthcare technology sector, focusing on developing secure and compliant APIs for health applications. I have a robust understanding of industry regulations such as HIPAA and have implemented numerous APIs that enhance patient data accessibility while ensuring stringent security measures.

PROFESSIONAL EXPERIENCE

HealthTech Innovations   *Mar 2018 - Present*
Mobile API Developer

- Developed and maintained secure APIs for electronic health record (EHR) systems, improving patient data access by 40%.
- Implemented encryption and authentication measures to comply with HIPAA regulations, ensuring data privacy.
- Collaborated with UX designers to create intuitive API interfaces tailored for healthcare applications.
- Conducted thorough testing and debugging of APIs, achieving a 99% uptime rate.
- Engaged in code reviews and knowledge sharing sessions, promoting best practices within the team.
- Utilized AWS services for API deployment, enhancing application scalability and reliability.

Wellness Apps Ltd.   *Dec 2015 - Jan 2018*
API Developer

- Designed RESTful APIs for a mobile health application, resulting in a 30% increase in user engagement.
- Worked closely with healthcare providers to integrate APIs, facilitating real-time patient monitoring.
- Participated in agile development processes, ensuring timely delivery of new features.
- Documented API usage and provided training to end-users, enhancing usability and adoption rates.
- Conducted performance assessments and optimizations, reducing latency by 20%.
- Collaborated with regulatory teams to ensure compliance with health data regulations.

ACHIEVEMENTS

- Received the 'Best Innovation' award for developing a pioneering API that improved patient data interoperability.
- Led a project that increased API response speeds by 50% through effective caching strategies.
- Achieved a 95% satisfaction rate from healthcare providers using the developed APIs.
