- Spanish
- French

Proactive Mobile API Developer with 3 years of experience in the travel and hospitality industry, focusing on creating APIs that enhance user experiences for booking applications. I specialize in technologies such as Java, Spring Boot, and RESTful services, allowing me to build efficient and user-friendly APIs. My collaborative approach enables me to work effectively with product managers and designers to define features that align with user needs.

WORK EXPERIENCE

Mobile API Developer
2020-2023

TravelTech Corp.

- Developed and maintained APIs for a mobile booking application, increasing booking completion rates by 30%.
- Collaborated with design teams to ensure user-friendly API interfaces, enhancing traveler satisfaction.
- Conducted performance testing, achieving a 25% reduction in API response times.
- Worked closely with QA teams to ensure high-quality API delivery before deployment.
- Documented API usage and provided training for new developers, facilitating smoother onboarding.
- Integrated third-party services for payment processing, improving transaction efficiency.

Junior API Developer
2019-2020

Hospitality Solutions Inc.

- Assisted in developing APIs for hotel booking systems, contributing to a 15% increase in customer engagement.
- Participated in agile development processes to deliver timely feature updates.
- Conducted testing and debugging of APIs, ensuring functionality met quality standards.
- Maintained comprehensive documentation for APIs, improving integration for external partners.
- Supported the migration of legacy systems to modern API architectures.
- Engaged with clients to gather feedback on API functionalities, driving enhancements based on user needs.

ACHIEVEMENTS

- Recognized for outstanding contributions to a project that improved user engagement by 20%.
- Successfully implemented a new API feature that reduced booking times by 15%.
- Achieved a 90% satisfaction rate from users after launching new API functionalities.
