Dedicated Mobile App Engineer with a specialization in financial technology and over 6 years of experience in developing secure mobile banking applications. Highly skilled in using modern frameworks and languages such as Swift, Kotlin, and React Native to create user-friendly apps that meet rigorous security standards. Experienced in collaborating with product managers and compliance teams to ensure that all applications meet industry regulations.

WORK EXPERIENCE

Mobile Application Engineer | FinTech Innovations   Jan 2022 – Present

- Developed a mobile banking application that achieved over 200,000 downloads within the first year.
- Integrated secure payment processing features that enhanced user trust and increased transactions by 25%.
- Collaborated with compliance teams to ensure all app features met regulatory requirements.
- Conducted performance testing to identify and resolve potential security vulnerabilities.
- Engaged with users to gather feedback and implement feature enhancements based on their needs.
- Maintained detailed documentation of application processes and updates for compliance reviews.

Mobile Developer | Banking Apps LLC   Jul 2019 – Dec 2021

- Assisted in the development of a budget management app that improved user financial literacy by 30%.
- Collaborated with UI/UX designers to create an intuitive interface that improved user experience ratings by 15%.
- Participated in code reviews to maintain high quality and security standards throughout the development lifecycle.
- Conducted user acceptance testing to ensure functionality met user expectations before launch.
- Engaged in continuous professional development to stay updated on emerging trends in fintech.
- Maintained project documentation, providing clear updates to stakeholders throughout the app development process.

SKILLS

Swift   Kotlin   React Native   Security Compliance   Payment Processing   User Feedback
