Michael Anderson

MOBILE AUTOMATION ENGINEER

I am a results-driven Mobile Automation Engineer with 7 years of experience in the retail industry, focusing on enhancing the mobile shopping experience through automated testing. My expertise lies in developing and executing comprehensive test plans that ensure the functionality and performance of mobile applications.

EXPERIENCE

MOBILE AUTOMATION ENGINEER

Retail Innovations Inc.

2016 - Present

- Designed and executed automated test cases for mobile retail applications using Appium.
- Collaborated with product teams to define test requirements based on customer feedback.
- Conducted regression testing to ensure new features did not impact existing functionality.
- Utilized performance testing tools to assess application load handling capabilities.
- Documented testing processes and results, providing insights for future improvements.
- Trained team members on effective use of automation tools and methodologies.

QA TESTER

ShopSmart Apps

2014 - 2016

- Performed manual and automated testing for mobile applications targeting the retail market.
- Worked closely with developers to troubleshoot issues and verify fixes.
- Maintained and updated test cases in TestRail to ensure accuracy and completeness.
- Participated in sprint reviews to provide feedback on the mobile application development process.
- Assisted in the rollout of new features through user acceptance testing.
- Contributed to the development of a mobile testing center of excellence within the organization.
