EDUCATION

MASTER OF SCIENCE IN INFORMATION TECHNOLOGY, TECH UNIVERSITY

ACHIEVEMENTS

- Led a project that improved application loading times by 35% through optimization.
- Received the Excellence in Innovation Award for contributions to mobile DevOps practices.
- Achieved a 95% success rate in automated deployments.

PROFILE

Results-driven Mobile DevOps Engineer with over 8 years of experience in the technology sector, focusing on mobile application development and deployment. Expertise in container orchestration using Kubernetes and cloud services like Azure. Committed to enhancing user experience through seamless application delivery and high availability. Skilled in developing deployment strategies that ensure security, scalability, and performance.

EXPERIENCE

SENIOR MOBILE DEVOPS ENGINEER

Innovative Mobile Solutions

2016 - Present

- Architected scalable CI/CD pipelines using Azure DevOps, enhancing deployment frequency by 50%.
- Implemented container orchestration with Kubernetes, improving resource management.
- Collaborated with product teams to define and implement mobile application monitoring strategies.
- Automated infrastructure provisioning using Terraform, reducing setup times significantly.
- Conducted performance tuning and optimization for mobile applications, achieving 98% user satisfaction ratings.
- Mentored junior engineers on best practices in mobile DevOps.

MOBILE APPLICATIONS ENGINEER

NextGen Technologies

2014 - 2016

- Developed mobile application deployment strategies that improved time-to-market by 30%.
- Utilized Jenkins for continuous integration, ensuring high-quality code in production.
- Collaborated with UX/UI teams to enhance mobile user experience.
- Led initiatives to optimize build processes, reducing build times by 20%.
- Provided support and troubleshooting for production mobile applications.
- Participated in Agile ceremonies to align development with business goals.
