Dedicated Mobile Framework Developer with 4 years of experience in developing user-friendly mobile applications in the e-commerce sector. Proven ability to translate business requirements into technical specifications, ensuring seamless application functionality and user satisfaction. Skilled in employing various mobile frameworks to enhance application performance and user experience. Strong analytical skills enable the identification of areas for improvement and innovation.

PROFESSIONAL EXPERIENCE

E-Commerce Hub   *Mar 2018 - Present*
Mobile Framework Developer

- Designed and developed an e-commerce mobile application that increased sales by 25% within the first quarter post-launch.
- Collaborated with marketing teams to implement features that enhanced customer engagement.
- Utilized React Native to create a seamless user experience across platforms.
- Conducted A/B testing to assess feature effectiveness, leading to data-driven decisions.
- Maintained application updates and patches, ensuring optimal performance and security.
- Engaged in user feedback sessions to continuously improve application functionality.

Tech Startups Inc.   *Dec 2015 - Jan 2018*
Software Engineer Intern

- Assisted in the development of a mobile application, contributing to the successful launch on schedule.
- Participated in code reviews to enhance coding standards and team learning.
- Helped with debugging and troubleshooting issues in existing applications.
- Developed prototypes to demonstrate potential features and functionalities.
- Collaborated with design teams to ensure alignment with user experience goals.
- Documented technical specifications for future reference and project continuity.

ACHIEVEMENTS

- Received 'Best New Developer' award for outstanding contributions during the internship.
- Increased application download rate by 40% through effective marketing strategies.
- Achieved a 95% satisfaction rate in user feedback surveys post-launch.
