BACHELOR OF SCIENCE IN HEALTH INFORMATICS, UNIVERSITY OF HEALTH SCIENCES, 2016

ACHIEVEMENTS

- Recognized for developing a feature that enhanced patient engagement by 50%.
- Contributed to an application that received positive reviews from healthcare users, with a 4.8-star rating.
- Increased application user base by 60% within the first year of launch.

WORK EXPERIENCE

MOBILE FRAMEWORK DEVELOPER
HealthTech Solutions
2020 - 2025

- Developed a mobile application that improved patient appointment scheduling, resulting in a 35% reduction in no-show rates.
- Ensured compliance with HIPAA regulations while developing features that protect patient data.
- Collaborated with healthcare professionals to gather requirements and optimize user experience.
- Utilized Xamarin to create cross-platform applications, enhancing accessibility for users.
- Conducted usability testing to gather feedback and implement necessary adjustments.
- Participated in project planning sessions to ensure alignment with healthcare objectives.

JUNIOR DEVELOPER
Wellness Apps Co.
2015 - 2020

- Assisted in the creation of a mobile application focused on wellness tracking and health management.
- Supported the integration of third-party APIs to enhance application functionality.
- Engaged in user testing and feedback sessions to inform feature development.
- Documented technical processes and created user guides for the application.
- Participated in team meetings to discuss project progress and challenges.
- Contributed to troubleshooting efforts to resolve application issues promptly.
