EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING, HEALTH UNIVERSITY

ACHIEVEMENTS

- Improved app performance leading to a 50% reduction in user complaints.
- Received a commendation for assisting in the launch of a successful telehealth application.
- Contributed to a project that won the 'Best Health App' award at a national conference.

PROFILE

I am a seasoned Mobile Frontend Developer with over six years of experience specializing in the healthcare sector. My expertise lies in developing secure and user-friendly mobile applications that help improve patient outcomes and streamline healthcare services. I have a strong foundation in Swift and Kotlin, enabling me to create native applications that are responsive and efficient.

EXPERIENCE

MOBILE FRONTEND DEVELOPER

HealthTech Solutions

2016 - Present

- Developed a mobile application for remote patient monitoring, enhancing user engagement by 35%.
- Worked closely with UX designers to implement user feedback into app updates, improving user satisfaction.
- Utilized Swift and Kotlin to create secure, user-friendly applications compliant with HIPAA regulations.
- Integrated health data APIs to ensure real-time updates and user accessibility.
- Led training sessions for healthcare professionals on app usage, increasing adoption rates.
- Collaborated with backend developers to optimize data retrieval processes, reducing load times by 40%.

JUNIOR MOBILE DEVELOPER

MediTech Innovations

2014 - 2016

- Assisted in the development of a mobile app aimed at improving patient appointment management.
- Conducted user testing sessions to gather feedback for future improvements.
- Helped implement security measures to protect patient data within the app.
- Collaborated with senior developers to troubleshoot and debug application issues.
- Maintained application documentation and code libraries for future reference.
- Participated in weekly team meetings to discuss project progress and roadblocks.
