ACHIEVEMENTS

- Led a project that reduced mobile app load times by 60% through optimization techniques.
- Played a key role in launching a mobile app that received a 4.8-star rating on app stores.
- Recognized as 'Employee of the Month' for exceptional performance in project delivery.

PROFILE

Results-driven Mobile Full Stack Developer with 5 years of experience in the fintech sector, specializing in creating secure and reliable mobile applications. My career has been dedicated to leveraging cutting-edge technologies to enhance financial services through mobile platforms. I am well-versed in both front-end and back-end technologies, including React Native and Node.

EXPERIENCE

MOBILE FULL STACK DEVELOPER

Fintech Solutions Corp.

2016 - Present

- Designed and developed a secure mobile banking application used by over 100,000 customers.
- Implemented multi-factor authentication to enhance security protocols within the application.
- Collaborated with security teams to conduct vulnerability assessments and ensure compliance with regulations.
- Integrated third-party APIs to facilitate seamless financial transactions.
- Optimized the app for performance, achieving a 50% faster transaction processing time.
- Participated in user feedback sessions to continuously improve the user interface and experience.

JUNIOR MOBILE DEVELOPER

Digital Finance Inc.

2014 - 2016

- Assisted in the development of mobile applications focused on investment management.
- Wrote unit tests and participated in code reviews to maintain high-quality standards.
- Worked with designers to create user-friendly interfaces that enhance customer satisfaction.
- Utilized analytics tools to monitor app usage and inform future updates.
- Managed backend services using Node.js to ensure efficient data handling.
- Supported the migration of legacy applications to modern mobile platforms.
