MICHAEL ANDERSON

MOBILE APPLICATION ENGINEER

Creative and detail-oriented Mobile Full Stack Developer with 6 years of experience in the e-commerce industry. My background includes building responsive and engaging mobile applications that drive sales and enhance user experience. I have a strong command of modern programming languages and frameworks including React Native, JavaScript, and Swift, allowing me to deliver robust applications that meet business objectives.

PROFESSIONAL EXPERIENCE

E-commerce Solutions LLC   *Mar 2018 - Present*
Mobile Application Engineer

- Developed a mobile shopping app that increased conversion rates by 35% within 6 months of launch.
- Collaborated with the marketing team to incorporate user feedback into application updates.
- Integrated payment gateways to enhance transaction security and user trust.
- Utilized A/B testing to optimize user interface designs and improve customer retention.
- Conducted performance testing to ensure app efficiency under high traffic conditions.
- Participated in sprint planning meetings to align development efforts with business goals.

StartUp Inc.   *Dec 2015 - Jan 2018*
Mobile Developer Intern

- Assisted in the development of a prototype for a new e-commerce platform.
- Gained hands-on experience in mobile application development using React Native.
- Participated in user testing to gather insights for application enhancements.
- Worked closely with senior developers to learn best practices in coding and design.
- Documented development processes and user guides for future reference.
- Contributed to team meetings with innovative ideas for user engagement strategies.

ACHIEVEMENTS

- Achieved a 4.7-star rating for the mobile app developed, praised for its user-friendly interface.
- Contributed to a team project that won 'Best Innovation' at a local tech competition.
- Developed a feature that reduced cart abandonment rates by 20% through improved user flow.
