#### WORK EXPERIENCE

##### HEALTHCARE MOBILE DEVELOPER

HealthTech Innovations

2020 - 2025

- Developed a mobile application that enabled patients to access their health records, leading to a 30% improvement in patient engagement.
- Collaborated with healthcare professionals to define user requirements and implement effective solutions.
- Ensured app compliance with HIPAA regulations, safeguarding patient information.
- Implemented push notifications for appointment reminders, improving attendance rates by 20%.
- Utilized Xamarin for cross-platform development, enhancing the app's reach.
- Gathered and analyzed user feedback to continuously improve app features and user experience.

##### MOBILE APP INTERN

CareApp Solutions

2015 - 2020

- Assisted in the development of a mobile app for medication reminders that increased adherence by 25%.
- Conducted research on user needs within the healthcare sector to inform app features.
- Participated in daily scrums to discuss progress and challenges faced during development.
- Helped in creating user documentation and tutorials for the app.
- Tested the app for usability and functionality issues, reporting findings to the development team.
- Gained experience in using Agile methodologies to enhance project efficiency.
