MICHAEL ANDERSON

LEAD MOBILE PERFORMANCE ENGINEER

A highly organized Mobile Performance Engineer with over 10 years of experience in mobile technology, specializing in performance testing and optimization. Proven ability to lead teams in developing high-performing mobile applications that deliver exceptional user experiences. Extensive experience with various performance measurement tools and techniques, ensuring applications meet and exceed performance benchmarks.

PROFESSIONAL EXPERIENCE

Digital Future Corp.   *Mar 2018 - Present*
Lead Mobile Performance Engineer

- Managed a team of engineers focused on mobile application performance optimization.
- Directed the implementation of performance testing strategies across multiple projects.
- Utilized advanced profiling tools to analyze app performance and identify bottlenecks.
- Collaborated with product teams to define performance metrics and goals.
- Presented findings and recommendations to executive stakeholders for performance improvements.
- Developed training programs for new engineers on mobile performance best practices.

NextGen Mobile Solutions   *Dec 2015 - Jan 2018*
Mobile Application Tester

- Conducted thorough testing of mobile applications to identify performance issues.
- Utilized tools such as LoadRunner and Charles Proxy for performance testing.
- Documented test results and provided detailed feedback to the development team.
- Engaged in regression testing to ensure previous performance fixes remained intact.
- Collaborated with cross-functional teams to enhance application performance.
- Maintained performance testing documentation to support continuous improvement efforts.

ACHIEVEMENTS

- Led a project that improved mobile app performance metrics by 50%.
- Awarded 'Outstanding Team Leader' for successful project delivery.
- Published a white paper on mobile performance testing methodologies.
