MICHAEL ANDERSON

MOBILE QUALITY ASSURANCE LEAD

I am a results-driven Mobile Quality Engineer with a strong background in the automotive industry. Over the past 7 years, I have focused on developing and implementing rigorous testing procedures for mobile applications that interface with vehicle technology. My career has been marked by a commitment to enhancing the safety and reliability of automotive applications.

PROFESSIONAL EXPERIENCE

AutoTech Innovations

Mar 2018 - Present

Mobile Quality Assurance Lead

- Managed mobile testing projects focusing on automotive applications and integration.
- Developed test plans and automated test scripts using TestComplete.
- Ensured compliance with automotive industry standards through rigorous testing.
- Collaborated with engineering teams to troubleshoot and resolve critical issues.
- Mentored junior QA team members on testing best practices in the automotive sector.
- Presented testing results and insights to senior management to guide future developments.

SmartDrive Technologies

Dec 2015 - Jan 2018

Mobile QA Engineer

- Conducted thorough testing of mobile applications for vehicle diagnostics.
- Utilized Selenium for automated testing to enhance efficiency and accuracy.
- Participated in requirements gathering sessions to align testing with user needs.
- Developed and executed performance tests to ensure app reliability under various conditions.
- Reported defects and worked with developers to ensure timely resolutions.
- Contributed to the development of user manuals based on testing outcomes.

ACHIEVEMENTS

- Improved mobile application reliability by 45% through effective testing strategies.
- Recognized for excellence in quality assurance during the company's annual awards.
- Successfully completed a project that led to the launch of a new vehicle app with minimal defects.
