MASTER OF SCIENCE IN INFORMATION TECHNOLOGY, TECH UNIVERSITY

ACHIEVEMENTS

- Recognized for reducing release-related incidents by 25% through improved processes.
- Led a project that successfully launched a mobile app ahead of schedule, receiving positive media attention.
- Achieved a company record for the fastest release turnaround time on a major update.

PROFILE

With a decade of experience as a Mobile Release Engineer, I have cultivated a comprehensive skill set in mobile application deployment and project management. My journey began in software development, where I gained foundational knowledge in coding and application architecture. Over the years, I transitioned into release engineering, focusing on streamlining processes and enhancing team collaboration.

EXPERIENCE

SENIOR MOBILE RELEASE ENGINEER

Digital Solutions Corp.

2016 - Present

- Oversaw the release management process for multiple flagship mobile applications, achieving 99% uptime during updates.
- Implemented CI/CD pipelines that reduced release cycles from weeks to days.
- Coordinated with development and QA teams to establish best practices for release documentation and communication.
- Conducted training workshops on release processes for new team members, enhancing onboarding efficiency.
- Utilized performance metrics to identify and address bottlenecks in the release process.
- Developed risk assessment strategies to mitigate potential release failures.

MOBILE SOFTWARE DEVELOPER

NextGen Mobile Apps

2014 - 2016

- Engineered mobile applications with a focus on performance and user engagement, resulting in a 40% increase in user retention.
- Collaborated with UX/UI designers to create intuitive interfaces that meet user needs.
- Utilized analytics tools to monitor app performance and user behavior, informing future development.
- Participated in code reviews to maintain high-quality standards across the development team.
- Integrated user feedback into app updates, enhancing overall user satisfaction.
- Researched and implemented new technologies to improve application efficiency and functionality.
