SKILLS

- Java
- Kotlin
- Telecommunications
- API Development
- User Testing
- Collaboration

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF ILLINOIS, URBANA-CHAMPAIGN, 2018

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Developed an SDK that increased voice call integration success rates by 50%.
- Recognized for outstanding performance and dedication to project goals.
- Contributed to a mobile application that received 'Best App' award from industry peers.

I am a dedicated Mobile SDK Developer with 5 years of experience in the telecommunications sector. My expertise lies in creating SDKs that facilitate communication services, such as messaging and voice calls, within mobile applications. I have a strong foundation in both front-end and back-end development, allowing me to create comprehensive solutions that meet the demands of modern communication.

EXPERIENCE

MOBILE SDK DEVELOPER

Telecom Innovations Co.

2016 - Present

- Developed an SDK for integrating voice and messaging services into mobile applications.
- Collaborated with network engineers to optimize SDK performance and reliability.
- Conducted testing to ensure compliance with telecommunications standards and regulations.
- Provided technical support for clients during SDK integration, achieving a 98% satisfaction rate.
- Documented SDK functionalities and integration processes for future reference.
- Participated in code reviews and team meetings to share insights and improve processes.

SOFTWARE DEVELOPER

Global Telecom Group

2014 - 2016

- Assisted in developing mobile applications for communication services, focusing on user experience.
- Integrated third-party APIs to enhance application functionalities and features.
- Participated in troubleshooting and debugging application issues reported by users.
- Engaged in user testing and feedback sessions to identify areas for improvement.
- Contributed to the documentation of software development processes and best practices.
- Worked with marketing teams to promote communication applications, increasing user engagement by 15%.
