EXPERTISE SKILLS

- Marine Systems
- Maintenance Management
- Safety Compliance
- Cross-Functional Leadership
- Risk Assessment
- Inventory Management

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Marine Engineering, Texas A&M University

MICHAEL ANDERSON

MRO ENGINEER

Results-oriented MRO Engineer with a robust background in the maritime industry, focused on enhancing the performance and reliability of marine vessels through innovative maintenance solutions. Expertise encompasses the management of maintenance operations, the development of repair strategies, and the integration of new technologies to optimize fleet performance. Adept at conducting thorough inspections and assessments to ensure compliance with international maritime regulations and standards.

PROFESSIONAL EXPERIENCE

Oceanic Marine Services

Mar 2018 - Present

MRO Engineer

- Led maintenance operations for a fleet of vessels, achieving a 25% reduction in downtime.
- Developed and monitored maintenance schedules to enhance operational readiness.
- Conducted risk assessments and implemented mitigation strategies for critical systems.
- Collaborated with contractors for dry-dock repairs and inspections.
- Managed inventory of spare parts to ensure availability and cost-effectiveness.
- Trained crew members on maintenance best practices and safety protocols.

Marine Solutions Corp.

Dec 2015 - Jan 2018

Junior MRO Engineer

- Assisted in the execution of maintenance tasks on various marine vessels.
- Participated in the development of maintenance documentation and manuals.
- Conducted inspections and reported findings to senior engineers.
- Supported troubleshooting efforts for mechanical and electrical systems.
- Maintained records of maintenance activities in compliance with regulatory requirements.
- Engaged in continuous learning to stay updated on marine engineering practices.

ACHIEVEMENTS

- Achieved a 15% increase in vessel reliability through targeted maintenance initiatives.
- Received commendation for outstanding performance during a major vessel overhaul.
- Implemented a safety training program that reduced incidents on board by 30%.
