### SUMMARY

Distinguished Nanotechnology IP Specialist with over a decade of experience in intellectual property management and patent law within the nanotechnology sector. Expertise encompasses comprehensive patent prosecution, litigation strategies, and licensing negotiations. Proven track record in developing robust IP portfolios that maximize asset value and mitigate risks associated with emerging technologies. Highly adept in navigating the complexities of international patent laws and regulations, ensuring compliance while fostering innovation.

---

### WORK EXPERIENCE

#### Senior IP Counsel Nano Innovations, Inc.

Jan 2023 - Present

- Led patent prosecution for over 150 nanotechnology patents, resulting in a 30% increase in granted patents.
- Developed and implemented IP strategy, aligning with corporate goals and enhancing market position.
- Conducted IP due diligence for mergers and acquisitions, identifying potential risks and opportunities.
- Negotiated licensing agreements with international partners, generating \$5 million in revenue.
- Provided training to R&D teams on IP best practices, fostering a culture of innovation.
- Collaborated with regulatory teams to ensure compliance with international patent laws.

#### IP Analyst TechNano Corp.

Jan 2020 - Dec 2022

- Assisted in the management of a diverse portfolio of nanotechnology patents, including drafting and filing applications.
  - Conducted freedom-to-operate analyses to identify potential infringement issues.
  - Reviewed and analyzed competitor patents, providing strategic insights to the business unit.
  - Collaborated with legal teams on patent litigation cases, preparing documentation and evidence.
  - Monitored industry trends and emerging technologies, advising on potential IP implications.
  - Participated in cross-functional teams to align research initiatives with IP strategies.
- 

### EDUCATION

#### Juris Doctor, Stanford Law School; Bachelor of Science in Chemical Engineering, MIT

Sep 2019 - Oct 2020

---
