MICHAEL ANDERSON

NETWORK ACCESS CONTROL ENGINEER

Proactive Network Access Control Engineer with 5 years of experience in securing enterprise networks through innovative access control solutions. Specializing in the deployment and management of NAC systems that promote both security and user accessibility. Strong analytical skills and a detail-oriented approach to identifying potential security risks. Proven ability to work collaboratively with IT and security teams to develop comprehensive security strategies.

PROFESSIONAL EXPERIENCE

Innovate Security
Mar 2018 - Present

Network Access Control Engineer

- Implemented NAC policies that improved access security for over 500 users in the organization.
- Collaborated with software developers to integrate security features into application development.
- Conducted regular audits and assessments to ensure compliance with security standards.
- Utilized tools such as Cisco ISE and Fortinet to monitor and manage network access.
- Trained new staff on best practices for network security and access control.
- Analyzed user access patterns to optimize network performance and security.

SecureWave Solutions
Dec 2015 - Jan 2018

Network Security Technician

- Assisted in the deployment of NAC solutions, enhancing network security for small to medium-sized businesses.
- Monitored network traffic and reported suspicious activities to senior engineers.
- Participated in incident response exercises to improve team readiness.
- Contributed to the development of security documentation and user guides.
- Engaged with clients to gather requirements for customized NAC implementations.
- Supported network troubleshooting efforts to resolve access issues promptly.

ACHIEVEMENTS

- Successfully implemented a NAC solution that resulted in zero security breaches for over a year.
- Recognized for exceptional performance in client engagement and satisfaction.
- Achieved a 20% reduction in access-related incidents through effective training programs.
