Strategic Network Access Control Engineer with 4 years of experience within the healthcare sector, dedicated to securing patient data and ensuring compliance with healthcare regulations. Skilled in implementing NAC solutions that protect sensitive information while enabling authorized access for medical staff. Strong understanding of HIPAA regulations and the importance of safeguarding patient data.

## WORK EXPERIENCE

**Network Security Engineer | HealthSecure Technologies**                    Jan 2022 – Present

- Implemented NAC policies that ensured compliance with HIPAA regulations, enhancing patient data security.
- Collaborated with healthcare providers to develop tailored security solutions for sensitive information.
- Conducted regular security assessments to identify vulnerabilities in the network.
- Provided training for medical staff on best practices for securing patient data.
- Monitored network activity to detect potential threats and breaches.
- Worked with IT teams to ensure seamless integration of NAC solutions with existing systems.

**IT Security Analyst | MediTech Solutions**                    Jul 2019 – Dec 2021

- Assisted in the implementation of security measures to protect patient information.
- Conducted audits of network security controls to ensure compliance with healthcare standards.
- Developed training materials focused on security practices for healthcare staff.
- Engaged in incident response activities to address security breaches quickly.
- Collaborated with IT teams to enhance security protocols and access controls.
- Monitored network logs for any suspicious activity related to patient data access.
