Michael Anderson

NETWORK ARCHITECT

Strategic Network Architect with over 14 years of experience in the healthcare industry, focusing on designing secure and compliant networks that support critical medical systems. Proven expertise in managing complex network infrastructures while ensuring compliance with HIPAA regulations. Adept at collaborating with healthcare professionals to understand their specific network needs and deliver tailored solutions.

EXPERIENCE

NETWORK ARCHITECT

HealthNet Systems

2016 - Present

- Designed and implemented a secure network architecture that supports electronic health records (EHR) systems.
- Ensured compliance with HIPAA regulations through regular network audits and assessments.
- Worked with IT staff to develop and enforce network security policies.
- Collaborated with healthcare providers to assess network needs and optimize performance.
- Trained staff on best practices for data security and network usage.
- Managed vendor relationships to ensure high-quality service and support.

NETWORK ENGINEER

MedTech Solutions

2014 - 2016

- Assisted in the implementation of network solutions for various healthcare facilities.
- Monitored network performance to ensure optimal functionality of critical medical applications.
- Provided technical support to healthcare staff, achieving high satisfaction ratings.
- Developed training programs on network usage and data security.
- Participated in disaster recovery planning to safeguard patient data.
- Collaborated with other departments to ensure seamless integration of new technologies.
