EDUCATION

BACHELOR OF SCIENCE IN NETWORK ENGINEERING, STATE UNIVERSITY

ACHIEVEMENTS

- Recognized for successfully implementing a new network monitoring system that improved response times by 30%.
- Contributed to a team project that enhanced network security, resulting in zero data breaches for 2 years.
- Achieved a certification in Cisco Certified Network Associate (CCNA).

PROFILE

Results-driven Network Engineer with over 5 years of experience specializing in enterprise-level network solutions in the healthcare sector. My expertise lies in designing, implementing, and supporting robust network systems that ensure the integrity and security of sensitive patient data. I possess a strong understanding of HIPAA compliance and have successfully aligned network operations with regulatory requirements.

EXPERIENCE

NETWORK ENGINEER

Healthcare Networks LLC

2016 - Present

- Designed and implemented a secure network infrastructure compliant with HIPAA regulations.
- Managed network performance monitoring tools, reducing downtime by 20% through proactive troubleshooting.
- Configured firewalls and intrusion detection systems to safeguard sensitive patient information.
- Conducted training sessions for staff on network security best practices.
- Collaborated with IT teams to develop disaster recovery plans for critical systems.
- Evaluated and recommended upgrades to network hardware and software to optimize performance.

JUNIOR NETWORK ENGINEER

City Health System

2014 - 2016

- Assisted in the configuration of network devices to support hospital operations.
- Performed regular network audits to ensure compliance with security policies.
- Provided technical support for network-related issues, achieving high customer satisfaction ratings.
- Documented network changes and updates for compliance records.
- Participated in the rollout of a new telemedicine platform, ensuring network stability.
- Supported the implementation of a virtual private network for remote healthcare providers.
