SKILLS

- Cloud networking
- Performance metrics
- Capacity planning
- Troubleshooting
- Team collaboration
- Compliance

EDUCATION

BACHELOR OF SCIENCE IN NETWORK ADMINISTRATION, UNIVERSITY OF CLOUD TECHNOLOGY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully transitioned 95% of on-premises networks to cloud infrastructure.
- Improved cloud network performance by 30% through optimized monitoring solutions.
- Recognized with the Outstanding Achievement Award for excellence in cloud networking.

Michael Anderson

CLOUD NETWORK ENGINEER

Experienced Network Monitoring Engineer with a focus on cloud-based network solutions and performance metrics. Over 7 years of professional experience in designing, implementing, and managing cloud network infrastructures for global enterprises. Proficient in leveraging cloud monitoring tools to optimize performance and ensure security compliance. Strong analytical skills combined with a deep understanding of network protocols and architectures.

EXPERIENCE

CLOUD NETWORK ENGINEER

CloudTech Solutions

2016 - Present

- Designed and implemented cloud network monitoring solutions using AWS CloudWatch and Azure Monitor.
- Monitored network performance and security across cloud environments.
- Collaborated with development teams to integrate network monitoring into CI/CD pipelines.
- Conducted capacity planning and performance tuning for cloud resources.
- Provided support for cloud migration projects and network configurations.
- Prepared reports on cloud network performance for stakeholders.

NETWORK ENGINEER

Global Tech Corp.

2014 - 2016

- Managed on-premises network monitoring using tools like Nagios and Cacti.
- Assisted in troubleshooting and resolving network connectivity issues.
- Documented network configurations and changes for compliance audits.
- Participated in the design and implementation of network upgrades.
- Trained junior staff on network monitoring best practices.
- Engaged in regular assessments of network performance metrics.
