

# MICHAEL ANDERSON

## SENIOR NETWORK ARCHITECT

### PROFILE

Results-driven Network Planning Engineer with over 10 years of experience in the IT sector, specializing in enterprise network solutions. Expertise in assessing organizational needs and translating them into effective network configurations. Adept at leveraging cloud technologies to enhance network performance and security. Strong analytical skills with a focus on implementing solutions that maximize efficiency and minimize costs.

### EXPERIENCE

#### SENIOR NETWORK ARCHITECT

##### Global IT Solutions

2016 - Present

- Led the design and implementation of a multi-site network infrastructure across North America.
- Optimized cloud services integration, resulting in a 25% reduction in latency.
- Developed strategic network plans that aligned with business objectives, improving operational efficiency.
- Conducted risk assessments and developed mitigation strategies for network vulnerabilities.
- Mentored junior engineers on advanced network concepts and troubleshooting techniques.
- Prepared detailed reports and presentations for stakeholders, ensuring transparency and communication.

#### NETWORK ANALYST

##### Tech Solutions Group

2014 - 2016

- Performed network performance evaluations and recommended enhancements to meet growing demands.
- Utilized monitoring tools to detect and resolve network issues proactively.
- Assisted in the development of a network disaster recovery plan, ensuring business continuity.
- Collaborated with IT security teams to implement security measures across the network.
- Trained staff on best practices for network usage and security protocols.
- Documented network configurations and changes to maintain accurate records.
