MICHAEL ANDERSON

LEAD NETWORK SECURITY ENGINEER

Results-driven Network Security Engineer with 10 years of comprehensive experience in securing network infrastructures within the finance sector. My career has been characterized by a commitment to protecting sensitive financial data against evolving cyber threats. As a senior engineer, I have successfully led numerous projects that fortified network defenses, ensuring compliance with strict regulatory standards such as PCI-DSS.

PROFESSIONAL EXPERIENCE

FinSecure Corp

Mar 2018 - Present

Lead Network Security Engineer

- Directed the implementation of a comprehensive security framework, resulting in a 70% decrease in security incidents.
- Managed a team of engineers in conducting regular security audits and risk assessments across all network systems.
- Developed policies and procedures for incident response that improved response time by 50%.
- Implemented advanced encryption technologies to secure sensitive financial transactions.
- Collaborated with regulatory bodies to ensure compliance with PCI-DSS standards.
- Provided ongoing training to staff on emerging threats and security best practices.

WealthGuard Financial

Dec 2015 - Jan 2018

Network Security Engineer

- Conducted vulnerability assessments and penetration testing, identifying critical weaknesses in network security.
- Developed and maintained security documentation, enhancing operational efficiency.
- Monitored and responded to security incidents, ensuring minimal disruption to services.
- Worked closely with IT teams to implement firewall and intrusion detection systems.
- Participated in security awareness training, raising employee awareness of phishing threats.
- Assisted in the recovery of compromised systems, implementing lessons learned to prevent future incidents.

ACHIEVEMENTS

- Successfully led a project that achieved PCI-DSS compliance with zero findings during the audit.
- Received the 'Innovation Award' for developing a unique incident response strategy.
- Authored a white paper on financial sector cybersecurity that was published in a leading security journal.
