- French

Strategic Network Systems Engineer with over 11 years of experience in the healthcare industry, specializing in the integration of network technologies to support clinical operations. My expertise encompasses designing secure, compliant, and efficient network solutions that enhance patient care and streamline workflows. With a strong background in regulatory compliance and data security, I have successfully led initiatives that ensure adherence to HIPAA and other healthcare standards.

WORK EXPERIENCE

Network Systems Engineer   2020-2023

HealthTech Innovations

- Designed and implemented secure network infrastructures that supported telehealth services, improving patient access by 50%.
- Conducted risk assessments to ensure compliance with HIPAA regulations.
- Collaborated with clinical teams to optimize network performance for critical applications.
- Implemented network monitoring solutions that enhanced system reliability.
- Provided training to staff on the use of network technologies in clinical settings.
- Developed disaster recovery plans to protect patient data and ensure continuity of care.

Network Administrator   2019-2020

City Hospital

- Managed day-to-day network operations, ensuring 99.9% uptime for critical healthcare applications.
- Assisted in the implementation of electronic health records (EHR) systems.
- Executed regular backups and security updates to protect sensitive patient information.
- Provided technical support to end-users, enhancing their experience with network services.
- Documented network configurations and procedures for compliance audits.
- Participated in health IT initiatives aimed at improving patient care delivery.

ACHIEVEMENTS

- Successfully implemented a telehealth platform that expanded access to over 5,000 patients.
- Achieved full compliance with HIPAA regulations during audits.
- Recognized as 'Employee of the Month' for outstanding contributions to network security.
