- Achieved Certified Information Systems Security Professional (CISSP) certification.

PROFILE

Results-driven Networking Analyst with over 10 years of experience in enterprise-level networking environments. Specializing in network architecture design and implementation, I possess extensive knowledge of various networking protocols and technologies. My career has been marked by a commitment to enhancing network security and performance while reducing operational costs. I have effectively led teams in deploying innovative networking solutions that meet business objectives.

EXPERIENCE

LEAD NETWORKING ANALYST

Enterprise Systems Corp.

2016 - Present

- Led a team to redesign the company's network infrastructure, resulting in a 50% increase in data transfer speeds.
- Implemented advanced security measures which decreased security breaches by 70%.
- Conducted performance assessments using network analytics tools to ensure optimal operation.
- Established standard operating procedures for network maintenance and incident response.
- Managed cross-departmental projects to integrate new technologies with existing systems.
- Coached junior analysts in troubleshooting techniques and network management skills.

NETWORKING SPECIALIST

Innovative Networks LLC

2014 - 2016

- Configured enterprise-level routers and switches for improved network performance.
- Diagnosed and resolved network issues, achieving a 95% first-contact resolution rate.
- Developed and maintained comprehensive documentation of network configurations.
- Educated staff on networking best practices and security awareness.
- Worked closely with vendors to ensure timely updates and patches.
- Assisted in the integration of VoIP technologies, improving communication efficiency.
