### WORK EXPERIENCE

#### NETWORK SECURITY ANALYST

Secure IT Solutions

2020 - 2025

- Conducted vulnerability assessments and penetration testing to identify security gaps.
- Developed and implemented security policies and procedures to protect network integrity.
- Monitored network traffic for suspicious activity, responding to incidents promptly.
- Provided training to staff on cybersecurity awareness and best practices.
- Collaborated with IT teams to design secure architectures for new projects.
- Documented security incidents and remediation efforts for compliance audits.

#### NETWORKING ANALYST

Cyber Defense Corp.

2015 - 2020

- Assisted in the implementation of a security information and event management (SIEM) system.
- Analyzed network logs to identify and respond to potential threats.
- Participated in incident response drills to prepare for security breaches.
- Maintained up-to-date knowledge of emerging security threats and vulnerabilities.
- Collaborated with cross-functional teams to improve overall security posture.
- Coordinated with external auditors during security assessments and compliance reviews.
