Proactive and analytical NOC Engineer with over 10 years of experience in the IT and cybersecurity sectors. Demonstrated expertise in managing large-scale network operations, performing real-time monitoring, and ensuring compliance with security standards. Competent in identifying vulnerabilities and implementing robust security measures to safeguard network integrity. Adept at using advanced monitoring tools like Zabbix and Splunk for comprehensive network analysis.

PROFESSIONAL EXPERIENCE

SecureTech Solutions   *Mar 2018 - Present*
Lead NOC Engineer

- Directed NOC operations for a multi-site organization, ensuring high availability and security of network services.
- Implemented Splunk for enhanced log analysis and incident response capabilities.
- Trained and mentored a team of 10 engineers, improving team efficiency and incident resolution speed.
- Developed security protocols that reduced vulnerability incidents by 50%.
- Coordinated with cybersecurity teams to address potential threats and vulnerabilities.
- Generated monthly performance reports for executive review, highlighting key metrics and improvements.

DataGuard Networks   *Dec 2015 - Jan 2018*
NOC Engineer

- Monitored network security and performance, identifying and resolving issues proactively.
- Utilized Zabbix to track network health metrics and alert the team to anomalies.
- Assisted in the implementation of new security measures, enhancing overall network resilience.
- Conducted regular vulnerability assessments and reporting to senior management.
- Participated in incident response drills, improving team readiness and response times.
- Maintained comprehensive documentation of incidents and network changes.

ACHIEVEMENTS

- Achieved a 40% reduction in security incidents over three years through proactive measures.
- Recipient of the 'Outstanding Leadership Award' for exceptional team management.
- Successfully led a security audit project that passed with zero findings.
