EDUCATION

**BACHELOR OF SCIENCE IN
INFORMATION TECHNOLOGY,
UNIVERSITY OF TELECOM, 2014**

ACHIEVEMENTS

- Reduced security incidents by 40% through the implementation of proactive monitoring solutions.
- Developed a training program that increased awareness of security best practices among employees by 50%.
- Received 'Innovator Award' for creating a network security framework that improved compliance with regulations.

I am an Offensive Security Engineer with a robust background in telecommunications, specializing in network security and threat detection. Over the past 8 years, I have worked with leading telecom companies, focusing on securing critical communication infrastructure. My experience includes conducting risk assessments, penetration testing, and vulnerability management. I possess a strong understanding of network protocols and security frameworks, enabling me to develop effective defense strategies.

WORK EXPERIENCE

SENIOR NETWORK SECURITY ENGINEER

TelecomSecure Ltd.

2020 - 2025

- Led penetration testing initiatives on telecom infrastructure, resulting in a 35% improvement in security measures.
- Developed network monitoring strategies using Cisco Security Suite to detect and respond to threats in real-time.
- Conducted risk assessments that informed the deployment of critical security upgrades across the network.
- Collaborated with cross-functional teams to ensure compliance with industry regulations and standards.
- Provided training sessions on network security best practices for IT staff.
- Authored security policies that strengthened the overall security posture of the organization.

NETWORK SECURITY ANALYST

Global Telecom Services

2015 - 2020

- Performed vulnerability assessments on network systems, identifying key areas for improvement.
- Utilized Snort for intrusion detection and prevention, enhancing network security protocols.
- Participated in incident response activities to address network-related security breaches.
- Collaborated with IT teams to implement security patches and updates promptly.
- Produced detailed reports on security incidents that informed future security strategies.
- Engaged in continuous monitoring of network traffic to identify anomalous behavior.
