SKILLS

- Asset Integrity Management
- Predictive Maintenance
- Leadership
- Risk Assessment
- Data Analysis
- Safety Management

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
MECHANICAL ENGINEERING,
UNIVERSITY OF OKLAHOMA**

ACHIEVEMENTS

- Received 'Best Practice Award' for innovative reliability solutions.
- Successfully reduced equipment failure rates by 30% through strategic initiatives.
- Contributed to a published case study on asset management improvements.

WORK EXPERIENCE

LEAD RELIABILITY ENGINEER

Continental Resources

2020 - 2025

- Directed reliability engineering initiatives across multiple oil and gas facilities.
- Implemented an asset integrity management program that improved compliance.
- Analyzed failure data to develop predictive maintenance schedules.
- Trained engineering teams on reliability methodologies and tools.
- Collaborated with safety teams to enhance workplace safety protocols.
- Achieved a 20% reduction in operational incidents through targeted interventions.

ENGINEERING CONSULTANT

TechOil Solutions

2015 - 2020

- Provided expert guidance on reliability best practices to clients.
- Conducted assessments of client operations to identify improvement areas.
- Developed customized maintenance programs to enhance asset performance.
- Facilitated workshops on risk management and reliability engineering.
- Monitored industry trends to inform client strategies.
- Achieved client satisfaction ratings exceeding 90% through effective solutions.
