Engaging Online Education Consultant with a strong background in STEM education and project management. With over 8 years of experience, I have successfully developed and implemented online learning programs that promote STEM literacy among students. My expertise includes curriculum development, technology integration, and teacher professional development. I thrive on creating collaborative learning environments that inspire innovation and critical thinking.

WORK EXPERIENCE

STEM Education Specialist | Innovative Learning Solutions

Jan 2022 – Present

- Designed online STEM curriculum for middle and high school students.
- Collaborated with educators to integrate hands-on projects into online courses.
- Conducted professional development workshops for teachers on STEM teaching methods.
