MICHAEL ANDERSON

DIRECTOR OF RESEARCH

With over 15 years of experience in educational research and policy analysis, I specialize in the evaluation of online learning environments for K-12 students. My career has been dedicated to understanding how online education can be leveraged to improve student outcomes, particularly in rural and disadvantaged areas. I have worked closely with school districts to implement online curricula and assess their effectiveness through rigorous research methodologies.

PROFESSIONAL EXPERIENCE

K-12 Online Learning Institute   *Mar 2018 - Present*
Director of Research

- Oversaw research projects evaluating the impact of online curricula on student achievement.
- Collaborated with school administrators to develop effective online learning strategies.
- Managed a team of researchers to analyze data trends and outcomes in online education.
- Presented research findings to educational stakeholders and policymakers.
- Authored white papers that guided policy development at the state level.
- Facilitated professional development workshops for educators on online teaching methodologies.

National Center for Education Statistics   *Dec 2015 - Jan 2018*
Senior Research Analyst

- Conducted comprehensive studies on the effectiveness of online learning in K-12 settings.
- Developed data collection tools to capture student engagement metrics in online courses.
- Analyzed large datasets to identify trends in online education access and outcomes.
- Collaborated with state education departments to disseminate research findings.
- Contributed to the development of national policy recommendations for online education.
- Presented at national conferences on best practices in online learning research.

ACHIEVEMENTS

- Led a groundbreaking study that influenced statewide online learning policies for K-12 education.
- Published research that was cited in federal education reform discussions.
- Received the 'Excellence in Educational Research' award in 2019.
