

MICHAEL ANDERSON

Data Analyst

I am a results-driven Online Education Policy Researcher with over 9 years of experience specializing in data analytics and evaluation of online learning platforms. My career began in the tech industry, where I worked as a data analyst for an educational technology startup. This unique background has equipped me with the skills to conduct comprehensive evaluations of online educational tools and their effectiveness.

WORK EXPERIENCE

Data Analyst

2020-2023

EdTech Startup

- Analyzed user data to assess the effectiveness of online learning platforms.
- Developed dashboards to visualize key performance metrics for stakeholders.
- Collaborated with instructional designers to provide data-driven recommendations for course improvements.
- Conducted A/B testing to optimize online learning features based on user feedback.
- Presented data insights to executive leadership, influencing product development.
- Wrote analytical reports that guided strategic decision-making in course offerings.

Evaluation Specialist

2019-2020

University Research Center

- Conducted evaluations of online education programs to determine their effectiveness.
- Utilized statistical analysis software to analyze student performance data.
- Collaborated with faculty to implement changes based on evaluation findings.
- Engaged in longitudinal studies to track student success in online courses.
- Authored reports that were presented to university administration for policy recommendations.
- Facilitated discussions with educators on improving online teaching strategies.

ACHIEVEMENTS

- Increased online course completion rates by 20% through targeted recommendations.
- Received the 'Excellence in Analytics' award for outstanding contributions in education data analysis.
- Published research that influenced best practices in online education evaluation.
