I am an Online Education Policy Researcher with a focus on adult education and lifelong learning. With 11 years of experience in the field, I have dedicated my career to understanding how online education can support adult learners in achieving their personal and professional goals. My work encompasses research on the effectiveness of online courses tailored for adult populations, including working professionals and non-traditional students.

## WORK EXPERIENCE

### Senior Researcher | Adult Learning Institute

Jan 2022 – Present

- Led research initiatives focused on the impact of online education on adult learners.
- Collaborated with universities to develop online programs specifically for working professionals.
- Analyzed data on enrollment and completion rates among adult learners in online courses.
- Presented findings to stakeholders to advocate for policies supporting adult education.
- Authored publications highlighting effective online learning practices for adults.
- Facilitated workshops on integrating online education into professional development.

### Research Analyst | Continuing Education Association

Jul 2019 – Dec 2021

- Conducted evaluations of online programs targeted at adult learners.
- Collaborated with educational institutions to gather data on learner experiences.
- Engaged in qualitative research to understand barriers faced by adult learners.
- Presented evaluation findings at national conferences to influence policy changes.
- Authored reports that guided program development for adult education.
- Participated in community outreach to promote online learning opportunities.

## SKILLS

Adult education

Program evaluation

Policy advocacy

Data analysis

Research methodologies

Stakeholder collaboration

## EDUCATION

### Master of Education in Adult Learning

2015 – 2019

Columbia University

## ACHIEVEMENTS

- Increased enrollment of adult learners in online programs by 30% through targeted outreach.
- Received an award for outstanding research contributions to adult education in 2020.
- Published a study on best practices for online learning in adult education that gained nationwide attention.
