Creative Online Learning Consultant with a strong background in multimedia production and graphic design, specializing in the creation of visually engaging digital content for e-learning platforms. Over 6 years of experience in the education and training sectors, my skills in multimedia tools allow me to produce high-quality video tutorials, animations, and interactive modules that enhance the learner experience.

WORK EXPERIENCE

Multimedia Online Learning Consultant | Creative Learning Agency   Jan 2022 – Present

- Produced over 30 multimedia e-learning modules that improved learner engagement by 60%.
- Collaborated with educators to design visually appealing content that aligns with learning objectives.
- Utilized graphic design software to create interactive assessments and quizzes.
- Conducted usability testing to enhance course design and user experience.
- Facilitated workshops on multimedia production techniques for instructional designers.
- Managed multiple projects simultaneously, meeting tight deadlines without compromising quality.

E-Learning Designer | Digital Learning Solutions   Jul 2019 – Dec 2021

- Created engaging video tutorials and animations for online courses, resulting in a 40% increase in learner satisfaction.
- Worked with subject matter experts to ensure content accuracy and relevance.
- Designed interactive elements to enhance user engagement and knowledge retention.
- Conducted training for staff on best practices in multimedia design for e-learning.
- Monitored learner feedback to continually improve course content and design.
- Developed a library of reusable multimedia assets to streamline content creation.
