MICHAEL ANDERSON

API ARCHITECT

Strategic Open Banking API Engineer with a robust background in financial technology and software development. Expertise in designing APIs that not only meet technical requirements but also align with strategic business objectives. Proven ability to drive projects from conception through to deployment, demonstrating strong project management skills and an aptitude for stakeholder engagement.

PROFESSIONAL EXPERIENCE

NextGen Banking Solutions   *Mar 2018 - Present*
API Architect

- Architected a suite of APIs to support multi-channel banking services.
- Led a team of developers in the redesign of legacy systems.
- Ensured compliance with industry standards and regulations.
- Developed API governance frameworks to streamline development processes.
- Collaborated with external partners to integrate new services.
- Conducted training sessions for internal teams on API best practices.

Digital Finance Corp   *Dec 2015 - Jan 2018*
Software Engineer

- Developed and maintained APIs for online banking platforms.
- Implemented security measures to protect customer data.
- Worked with business analysts to gather requirements for new features.
- Created unit tests to ensure API functionality.
- Participated in system design discussions to enhance overall architecture.
- Provided technical support to internal users and clients.

ACHIEVEMENTS

- Successfully led the transition to a new API framework, reducing costs by 15%.
- Recognized for excellence in project delivery with a company-wide award.
- Increased API usage by 40% through strategic enhancements.
