Detail-oriented Operation Theatre Technologist with a focus on neurosurgical procedures, bringing over 5 years of experience in the operating room. I am passionate about ensuring that all surgical instruments are prepared with precision and that the operating room is maintained to the highest standards of cleanliness. My strong communication skills enable me to work effectively with surgeons, anesthesiologists, and nursing staff, ensuring a cohesive surgical team.

WORK EXPERIENCE

Operation Theatre Technologist | Neurosurgery Specialty Hospital

Jan 2022 – Present

- Provided support during over 150 neurosurgical procedures, ensuring all instruments were sterile and ready for use.
- Maintained meticulous records of surgical supplies, contributing to efficient inventory management.
- Collaborated with surgical teams to implement safety protocols that reduced patient complications by 20%.
- Assisted in training new staff on neurosurgical procedures and equipment handling.
- Monitored patient vitals during surgery, ensuring their stability and safety.
- Participated in departmental quality improvement initiatives, leading to enhanced surgical outcomes.

Surgical Technologist | General Medical Center

Jul 2019 – Dec 2021

- Supported a variety of surgical procedures, maintaining a high standard of care and safety.
- Assisted in inventory management, ensuring the availability of necessary supplies for surgeries.
- Conducted pre-operative patient assessments, improving the overall surgical experience.
- Contributed to the development of best practices for sterilization techniques.
- Collaborated with nursing staff to ensure clear communication and patient comfort.
- Engaged in ongoing education to stay current with advancements in surgical technology.
