EDUCATION

DOCTOR OF DENTAL SURGERY (DDS),
PEDIATRIC DENTISTRY, CHILDREN'S
DENTAL UNIVERSITY, 2015

ACHIEVEMENTS

- Honored with the 'Best Practice Award' at the Pediatric Dental Summit in 2020.
- Published research on the effects of dental trauma in children in a leading journal.
- Developed a training module for dental residents focusing on pediatric surgery techniques.

PROFILE

Experienced Oral Surgeon with a focus on pediatric oral surgery, bringing 8 years of dedicated service in this specialized field. My career is marked by a commitment to providing safe and effective surgical care for children, involving a high level of empathy and understanding of their unique needs. I have honed my skills in managing a variety of conditions, including cleft lip and palate, dental trauma, and impacted teeth.

EXPERIENCE

PEDIATRIC ORAL SURGEON

Kids Smile Surgery Center

2016 - Present

- Performed over 150 pediatric oral surgeries annually, focusing on safety and patient comfort.
- Developed tailored anesthesia protocols for children, reducing anxiety and complications.
- Worked closely with pediatric specialists to coordinate pre- and post-operative care.
- Participated in educational workshops for parents on post-operative care and nutrition.
- Achieved a 90% satisfaction rate from parents and caregivers regarding surgical outcomes.
- Implemented pain management strategies that led to decreased use of opioids in post-op care.

ORAL SURGERY RESIDENT

Children's Hospital

2014 - 2016

- Assisted in over 200 pediatric oral surgeries under the supervision of senior surgeons.
- Conducted patient assessments and created treatment plans for complex cases.
- Engaged in community outreach programs to provide dental screenings to children.
- Trained in advanced sedation techniques specific to pediatric patients.
- Conducted research on the impacts of early oral surgery on childhood development.
- Collaborated with a multidisciplinary team to improve surgical protocols.
