Dynamic Organic Chemist with over 4 years of experience in the field of forensic chemistry. I specialize in the analysis of organic compounds in criminal investigations, utilizing advanced techniques such as GC-MS and LC-MS. My work involves collaborating with law enforcement agencies to provide critical evidence for legal cases. I am detail-oriented and possess a strong understanding of chemical properties and their implications in forensic analysis.

WORK EXPERIENCE

Forensic Chemist | Forensic Science Lab   Jan 2022 – Present

- Conducted analyses of organic substances in criminal cases using GC-MS.
- Collaborated with investigators to interpret chemical evidence.
- Maintained a chain of custody for all samples analyzed.
- Prepared detailed reports of findings for court presentations.
- Testified as an expert witness in court on chemical analyses.
- Participated in training sessions on the latest forensic techniques.

Laboratory Technician | Crime Lab Solutions   Jul 2019 – Dec 2021

- Assisted forensic chemists in sample preparation and analysis.
- Conducted preliminary tests on organic samples for identification.
- Documented laboratory procedures and results accurately.
- Maintained laboratory equipment and ensured safety protocols.
- Collaborated with law enforcement on case-related inquiries.
- Participated in quality assurance programs to ensure accuracy of results.

SKILLS

| Forensic analysis | GC-MS | LC-MS | Evidence handling | Report writing | Attention to detail |

EDUCATION

Bachelor's in Forensic Chemistry   2016
University of Forensics

ACHIEVEMENTS

- Recognized for excellence in forensic analysis by the National Forensic Association.
- Contributed to the successful resolution of over 50 criminal cases.
- Presented research on forensic techniques at a national conference.
