- Co-authored a widely circulated guide on urban organic farming practices.
- Received the EcoFarm Innovator Award for outstanding contributions to organic education.

### PROFILE

Highly knowledgeable Organic Farming Educator with a robust background in agroecology and regenerative agriculture practices. Specializes in integrating scientific research with practical farming techniques to enhance organic production systems. Adept at engaging diverse audiences through dynamic teaching methodologies and experiential learning opportunities. Proven track record in fostering collaborations between agricultural researchers and local farming communities to promote best practices in organic farming.

### EXPERIENCE

#### LEAD AGRICULTURAL EDUCATOR

##### EcoFarm Institute

*2016 - Present*

- Developed and taught advanced courses on organic farming and agroecology.
- Facilitated hands-on training sessions for aspiring farmers, focusing on pest management and soil fertility.
- Collaborated with research institutions to incorporate scientific findings into educational materials.
- Organized annual conferences to connect educators and farmers in the organic sector.
- Trained over 300 individuals in sustainable farming techniques.
- Conducted evaluations to assess the impact of training programs on farming practices.

#### ORGANIC FARMING INSTRUCTOR

##### Community Agricultural Alliance

*2014 - 2016*

- Designed and implemented a curriculum for organic farming education targeted at urban communities.
- Led workshops that emphasized the importance of biodiversity in organic farming systems.
- Engaged with local schools to incorporate agricultural education into their science programs.
- Developed online courses to reach a wider audience interested in organic farming.
- Evaluated participant outcomes to refine educational offerings.
- Facilitated community gardens as a practical learning environment for organic practices.
